Introduction

The Board of Directors and Staff of Bakultali Mahila Sangshad developed this strategic plan. It provides The Bakultali Mahila Sangshad with a five-year roadmap for supports, services and organization development. The Board of Directors and staff will review progress quarterly and update the plan annually as needed. This plan was developed with broad involvement and guidance from the Board members and staff. The Strategic Planning Committee included board members and staffs on the management team. This Committee including several past members of the board met twice to reflect on the mission, vision, core operating values and assumptions underlying the organization's approach to its work. These meetings set the stage for a work session of the full team during which the organization's strategic direction was defined. The staff helped coordinate the planning process and provided important support and analysis to complete this plan. In the future Bakultali Mahila Sangshad may choose to produce a summary version of the plan for distribution to its primary and supporting partners and other stakeholders.

Vision

The vision statement describes the organization in the somewhat distant future—20 to 30 years. Components of the vision statement may include:

- 1) How big is the reach or scope of the work?
- 2) What is the organization doing? What is its role?
- 3) What does the organization itself look like?
- 4) Who are biggest partners?
- 5) What are the major sources of funding? It may also include major external context or assumptions that will influence this vision. The idea is to push the thinking out far enough that it is not tightly constrained by the current environment and capacities.

Context In the year 2025, greater acceptance and full inclusion by the community, improved services and support and more prevalent and helpful technology will add to the quality of life for children and

adults with disabilities. At the same time, because of population growth, the aging of the population, and higher incidences of multiple diagnoses, the needs of people with disabilities and their families will remain extensive and varied. While significant strides will have been made in people's acceptance of people with disabilities, there will be an on-going push for community inclusion and participation. Target Beneficiaries:

The primary beneficiaries of the organization is the person or thing whose life the organization most wants to impact/change on a regular, ongoing basis. It is often put in the framework of a SWOT (Strengths, Weaknesses, Opportunities and Threats) analysis. Strengths are internal characteristics, qualities, and capacities that are doing well and are part of the reason the organization's accomplishments. Weaknesses are internal qualities that need to be improved. Opportunities refer to external activities or trends that the organization may benefit from, connect with or take advantage of to grow or enhance its performance. The following is a brief summary of opportunities, threats, strengths and weaknesses highlighted by the board and staff of **Bakultali Mahila Sangshad**. They represent a small portion of the complete environmental scan attached to this strategic plan.

Strengths

Bakultali Mahila Sangshad key strengths include the organization's demonstrated ability to provide high quality, necessary services, which help people live a fuller life in the community. Staff is committed, and the services and programs offered are monitored for quality. When there is a challenge, the organization meets it through innovation appropriate approaches. **Bakultali Mahila Sangshad** has an excellent reputation and is looked to by other service providers as a leader.

Weaknesses

Some believe that **Bakultali Mahila Sangshad** significant growth has led to challenges to human resources, difficulty with supervision, lack of structure for coordination among departments, and inconsistent administrative and clerical support. There is a perceived need for improved management practices, use of technology, and increased use of volunteers. Issues with the employment program were mentioned, including tracking, matching people to jobs, training, and finding more opportunities. There was a call for additional social and recreational services and for greater visibility in the community.

Opportunities

The opportunities considered most important included: Increasing community acceptance and opportunity for further inclusion through employment. There appears to be increased emphasis on inclusion at schools and increased openness by employers to hire people with disabilities. These changes make **Bakultali Mahila Sangshad** philosophy more prevalent and may increase demand for its services and opportunities for employment and inclusion. Implications: Greater inclusion raises the community's consciousness to see our consumers as untapped resources. This can change the outlook at schools, career, and technical programs and lead to independence and economic stability for peoples. Increased visibility, which could lead to greater access to volunteers and other resources. The county has a range of resources including potential volunteers, community colleges for courses, and universities with students interested in working with community people all of which could be better tapped. Implications: **Bakultali Mahila Sangshad** could develop a program to support volunteers through screening, training and ongoing supervision. The program should also celebrate and recognize volunteer efforts. Having more volunteers can help increase fundraising. At the same time, others may look more closely at the quality of services provided by volunteers. New social & recreational activities. There is an

ongoing need for social and recreational opportunities for people including opportunities after the workday in the 3:00 to 6:00pm timeframe.

Implications:

Increasing social and recreational activities may draw in more consumers and increase their quality of life and community contact. To be successful here, **Bakultali Mahila Sangshad** could develop a greater partnership with The county Department of Parks and Recreation and the general community. Having transportation available will be vital for success. These activities are one way to utilize volunteers. At present there is no funding for expanding these services, so this will need to be addressed.

Implications: Bakultali Mahila Sangshad would require different skill sets, information, and facilities to serve this population. There is a different approach and need for different types of communication with families of children with autism, so there would be a learning curve for building trust. The relationship with the peoples would need to be considered. There is also a question about who will pay for these new services. Government Agency Waiver. Government will now provide the person with disabilities with a check to buy services.

Implications: This change will provide a greater opportunity to supplement services with private pay. Bakultali Mahila Sangshad" will need to be more visible, marketing and promoting the organization's "brand"—its high quality services. This will accelerate the development of "niches" of different service providers. Numerous concerns were raised about the change, including:

- There may be pressure to provide services that are not well funded.
- There will be an increased need to seek other funding streams.
- There will be "hidden costs" and indirect expenses.
- It may be necessary to reduce services to be sustainable
- Audit requirements may change bringing more regulations.
- There may be a need for advocacy around quality of services purchased.
- This may change who is the circle of decision makers, and change the meaning of "informed choice."
- Some people will go outside of the county for other services Other opportunities mentioned included:

Expanding family support especially, respite and outreach in various languages, and providing a broader array of services for youth transitioning to adulthood.

Threats

The threats considered most important included:

Dependence on government funding. Funding, particularly the residential funding stream, doesn't keep up with needs.

Implications: The Bakultali Mahila Sangshad" is to assess the real demand for its services, increase private pay options, and be prepared to explore other opportunities for generating revenue. The question of what happens when private money is gone needs to be addressed.

Staffing challenges and the cost of providing good care. It is hard to maintain a competent staffing pool, including staff that can speak multiple languages.

Implications: Although increased efficiency and technology may help, high turnover, especially among direct support staff, leads to increased administrative costs. To respond, The ABC Service Agency needs to increase fund raising, empower employees and increase their opportunity for growth, and develop a pay structure for different services. Other threats mentioned included:

- The aging population, which means aging caregivers and aging people with disabilities. The improvements in medicine mean people are living longer.
- There are a lot of nonprofits in the county, and volunteers and donors may not be engaged forever with a single service provider.
- Employment for persons with disabilities, especially in bad economic times, gets very difficult.
- Rising housing prices make affordable housing increasingly difficult to find and maintain.
- Families pushing for community inclusion and families concerned about protecting their children in the long run may make competing demands.

Strategic Direction

The strategic direction is a succinct statement about the strategy or approach an organization will take toward its work over a specific period of time. The statement is based on a combination of both the current environment (the opportunities and threats Note this is a sample plan and is not intended to refer to any particular organization.

facing the organization) and the mission and competencies of the organization. It is often a direct response to the strategic questions asked by an organization. Based on the Board of Directors' understanding of **Bakultali Mahila Sangshad** mission, primary customer, core values, and the opportunities and threats in the current environment, the next three to five years will be a time of assessing and deepening its approaches to its work. Concurrently, **Bakultali Mahila Sangshad** will take more of a leadership role in working with a broader array of community resources, and it will explore the feasibility of actively engaging volunteers.

Bakultali Mahila Sangshad will review and deepen its existing direct supports and services over time to ensure that they are they are state-of-the art for working effectively with children and adults with

disabilities. The model emphasizes consumer decision-making and community participation and integration. **Bakultali Mahila Sangshad** is committed to ensuring that all of its programs are exemplary. **Bakultali Mahila Sangshad** will further assess consumer and community needs to identify gaps or opportunities for shifts in service delivery. This assessment will serve as the basis for expanding or adding new services. The emphasis on further deepening programs would be the priority in the early years, and so growth in numbers of people served would not be a priority, if at all, until the later years of the plan.

Bakultali Mahila Sangshad will take a leadership role in working with a range of providers (not just disability providers and maybe some outside of the county) to identify and meet the needs of people with disabilities. **Bakultali Mahila Sangshad** will serve as a service “broker” when necessary. The focus will be to ensure quality across services and eliminate duplication.

Bakultali Mahila Sangshad will explore the feasibility of expanding the organization’s visibility in the community and making greater use of volunteers. The organization will explore developing and supporting a network of volunteers, being more active and visible in a wide range of community initiatives, highlighting the positive role that people with disabilities are playing in the community, and creating strong supporters for community participation throughout the broader community.

The **Bakultali Mahila Sangshad** will emphasize building its discretionary financial resources to invest in providing quality services. This includes building the endowment and establishing a maintenance fund to take care of our property assets.

Goals Areas
